A stove that uses no coal!

The Forester's Electric Stove is a revolutionary new stove that uses no coal, gas or electricity. It uses wood or peat instead of coal and burns continuously for 24 hours without refuelling. By heating and circulating the air it will keep the whole of a comfortable room at an even, comfortable temperature.

Of modern design, the Forester's Electric Stove is suitable through your local builder's merchant, who will be glad to give you full information. Price £6-5-0, in black or wood-grained cream with four enamel.
